**Good practices?  
It depends on the objective**

# Natural Engagement Pattern

# Adjusted to Discourage Borderline Content

**Good practices?  
It depends on the objective**

# The Must

--

- Is important to understand how different platforms work.
  - Is also a key issue to identify the different audiences.
  - To be clear about the content you want to communicate and adapt the language to the different audiences.
  - Is recommendable to create bonds with your audience.
  - To be accessible or reachable.
  - Expose your digital identity and be consistent.
  - Remember that once you upload an opinion, it could turn against you.
-

# The Don't

--

- Automatic responses or bots doesn't create real bonds.
  - Don't repeat news without checking it's integrity.
  - Don't pretend to know every answer. It's ok to ask and quote others.
  - Don't switch opinions regarding to the audience.
  - It's ok to simplify the message, but never treat your audience as idiots.
  - Don't engage in pointless fights.
-
